SUMMARY

Full-Stack Developer with over 5 years of professional experience in web application development, collaboration with design teams, and application optimization. Known for enhancing user engagement by refining client-side and server-side architecture. Proficient in a range of languages and frameworks with a passion for staying updated with the latest industry trends.

EXPERIENCE

Mid-Level Full-Stack Developer 04/2024 - Present
AD Brand Agency ↗

- Led and managed a development team, overseeing task distribution, code reviews, and project delivery timelines.
- Administered and optimized the company's and clients' cloud servers, ensuring high availability and performance.
- Developed and maintained multiple large-scale client projects using Laravel, with a strong focus on scalability and clean architecture.
- Delivered full-stack solutions for international clients, particularly in Saudi Arabia and the UAE, tailored to regional business needs.
- Introduced CI/CD workflows and version control practices, increasing team efficiency and reducing deployment errors by 60%.
- Collaborated with cross-functional teams to design and deploy user-centric applications with modern UI/UX standards.

Mid-Level Full-Stack Developer & Entry-Level Server Management 03/2021 - 04/2024
VUhost Cloud Solutions ↗

- Migrated over 200 client websites to optimized NGINX/Apache stacks with zero downtime.
- Developed a secure admin panel with role-based access, enhancing data protection and user control.
- Built internal CLI tools for automated deployment, reducing server setup time by 50%.
- Monitored and maintained Linux servers, applying patches and ensuring 99.9% uptime.

Junior Full-Stack Developer 04/2018 - 03/2021
dp Soft Technology ↗

- Developed and launched 20+ custom Web APP for clients using Laravel.
- Implemented domain license protection by encrypting build files tied to client domains.
- Automated file generation and packaging scripts, saving 10+ hours of manual work per week.
- Provided ongoing support to 50+ clients, resolving issues within 24 hours on average.

EDUCATION

Software Engineering 09/2025 - Present
Cairo University - Master of Software Engineering

Information Technology 09/2021 - 05/2025
Egyptian E-Learning University - Bachelor of Information Technology

- Awarded A+ for a large-scale capstone project: a global e-learning platform supporting 170 currencies, 140 languages, and 20 international payment gateways, tailored for universities worldwide.

- Earned Cisco certifications in networking fundamentals during the academic program, showcasing strong network infrastructure skills.
- Obtained a Microsoft certification in server management, demonstrating early proficiency in handling enterprise-grade server environments.
- Participated in multiple tech workshops and seminars, enhancing practical skills beyond academic coursework

CERTIFICATES

Certified Software Development Professional (CSDP)
IEEE Computer Society

2018 - Present
